

Name Surname

Software Engineer · Berlin, Germany

github.com/username · linkedin.com/in/username · fosstodon.org/@username ·
username@example.com

Engineer working on build tooling, static compilers and the unglamorous parts of developer experience. I like systems that stay fast as they grow, and documentation that tells you why rather than what.

EXPERIENCE

Mar 2024 – Present 2 yrs 7 mos	Staff Software Engineer Northwind Systems · Full-time · Hybrid · Berlin, Germany Lead the build platform team. Rebuilt the incremental compiler so that a change to one page no longer invalidates the whole dependency graph, cutting median CI time from 9 minutes to 40 seconds. Own the release process and the internal documentation site used by around 200 engineers. Go, Kubernetes, Compilers, Build Systems, Observability
May 2021 – Present 5 yrs 5 mos	Maintainer Static Web Collective · Volunteer · Remote Maintain a set of open source static site tools. Review contributions, cut releases and answer far more questions about YAML indentation than expected. Open Source, Node.js, Technical Writing
Jan 2022 – Feb 2024 2 yrs 2 mos	Senior Software Engineer Example Corp · Full-time · On-site · San Francisco, CA Built and maintained customer facing web applications in React and Node.js. Introduced a design system that removed roughly 40% of the duplicated CSS across four product surfaces. JavaScript, React, Node.js, Design Systems
Mar 2021 – Dec 2021 10 mos	Backend Engineer Meridian Labs · Contract · Remote Six month contract to build billing services and a public REST API, then extended to cover the migration off a single Postgres instance. Python, PostgreSQL, API Design

Jun 2020 – Sep 2020 4 mos	Software Engineering Intern Meridian Labs · Internship · Remote Wrote the internal tool that turned support tickets into reproducible test cases. It is somehow still in production. Python, Testing
------------------------------	--

EDUCATION

Sep 2022 – Jun 2024 1 yr 10 mos	M.Sc. Computer Science University of Example · Master's Degree · 1.3 GPA Thesis on incremental compilation for document trees, supervised by the programming languages group. Parts of it became the ICWE paper below.
Sep 2018 – Jun 2022 3 yrs 10 mos	B.Sc. Computer Engineering University of Example · Bachelor's Degree · 3.64 GPA Focused on software development and algorithms. Capstone project applied machine learning to triage in a hospital admissions dataset.

CREDENTIALS

2026-03 CERTIFICATE	Professional Cloud Architect · Google Cloud
2025-02 CERTIFICATE	Certified Kubernetes Administrator · The Linux Foundation
2024-09 CERTIFICATE	AWS Certified Solutions Architect – Associate · Amazon Web Services
2023-11 AWARD	Best Student Paper · International Conference on Web Engineering
2023-04 CERTIFICATE	AWS Certified Solutions Architect – Associate · Amazon Web Services (AWS)
2022-11 CERTIFICATE	Terraform Associate · HashiCorp
2022-06 AWARD	Faculty High Honors Graduate (Rank 2) · University of Example
2022-06 AWARD	Honor Graduate · Example University
